effect ("drill down")

The chart icon returns the user to the full chart.

#### Adverse Effects Comparison Tool

Compare the number of reported adverse effects for a list of drugs you create.

Our website contains general information about the adverse effects reported for certain drugs.

The medical information is not advice and should not be treated as such.

#### No warranties

The medical information on our website is provided without any representations or warranties, express or implied.

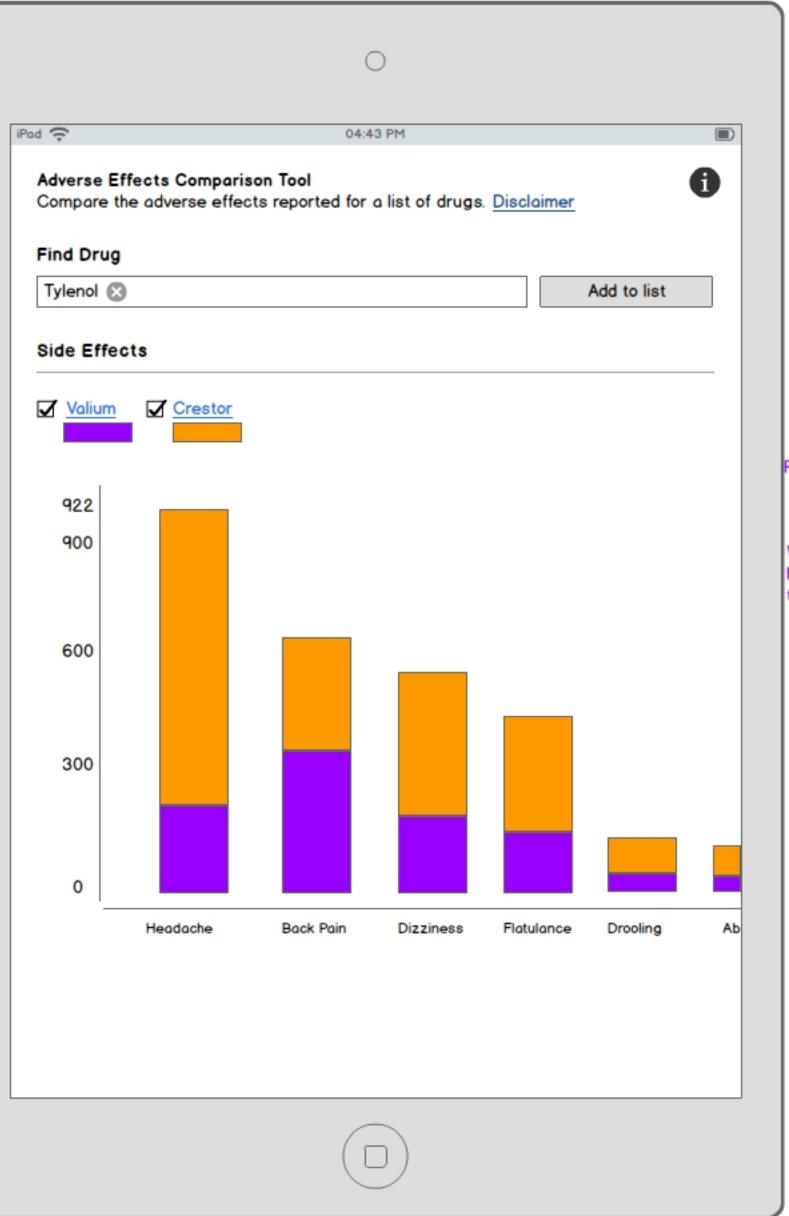

We do not warrant or represent that the medical information on this website:

- (a) will be constantly available, or available at all; or
- (b) is true, accurate, complete, current or non-misleading.

#### Medical assistance

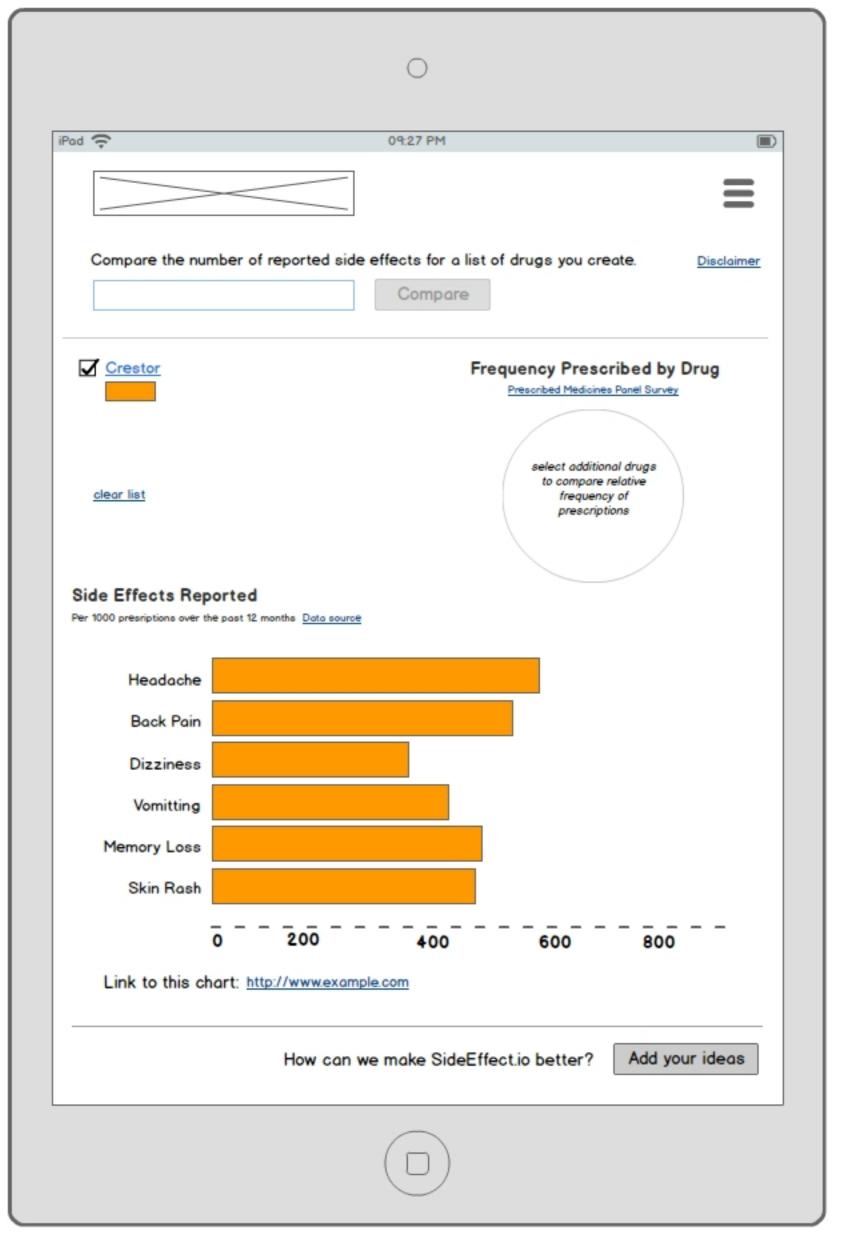

- 1 You must not rely on the information on our website as an alternative to medical advice from your doctor or other professional healthcare provider.
- 2 If you have any specific questions about any medical matter, you should consult your doctor or other professional healthcare provider.
- 3 If you think you may be suffering from any medical condition, you should seek immediate medical attention.
- 4 You should never delay seeking medical advice, disregard medical advice or discontinue medical treatment because of information on our website.

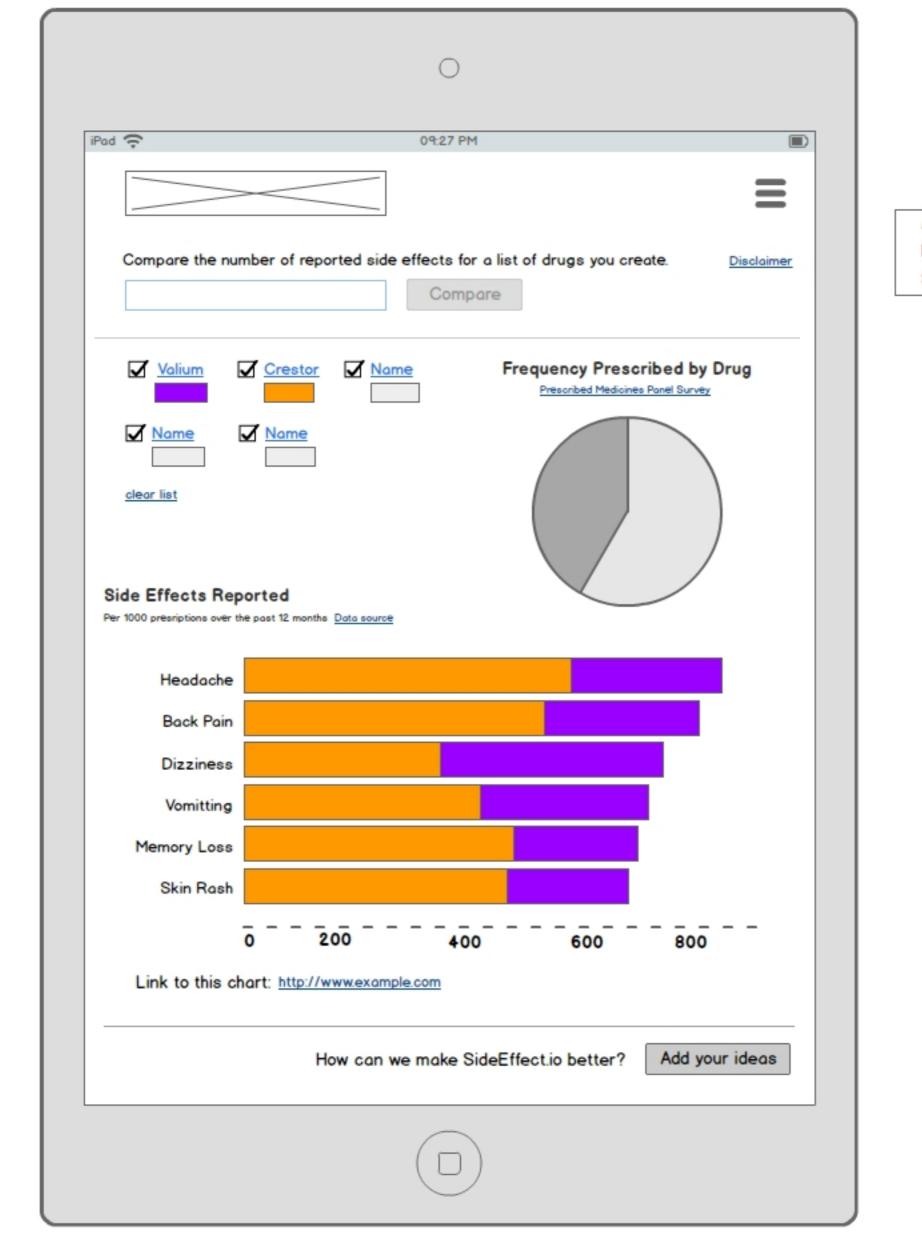

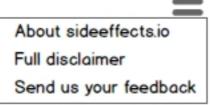

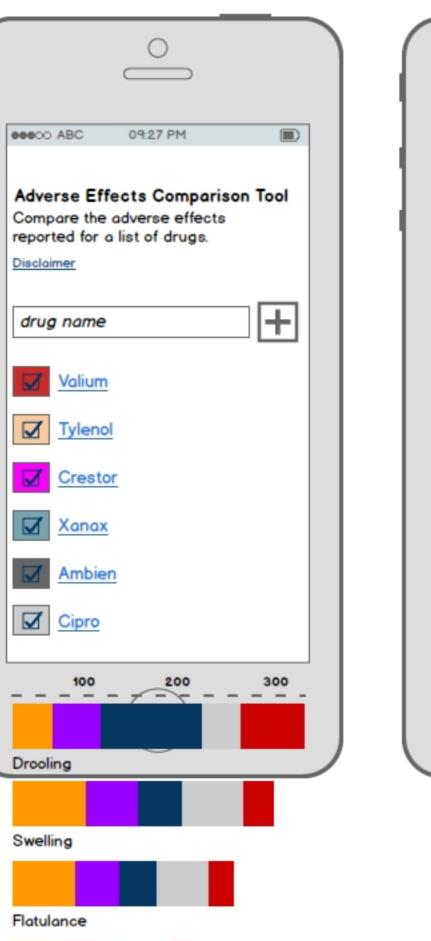

Previously entered drugs remains active.

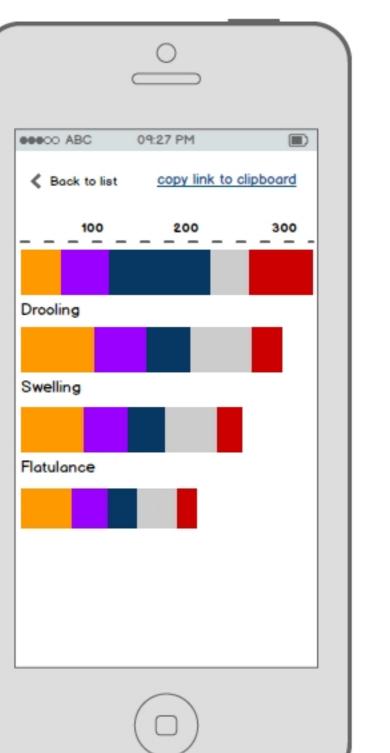

Will the chart be able to scroll left if we stay horizontal? If it can scroll we need to ensure the scale remains visible.

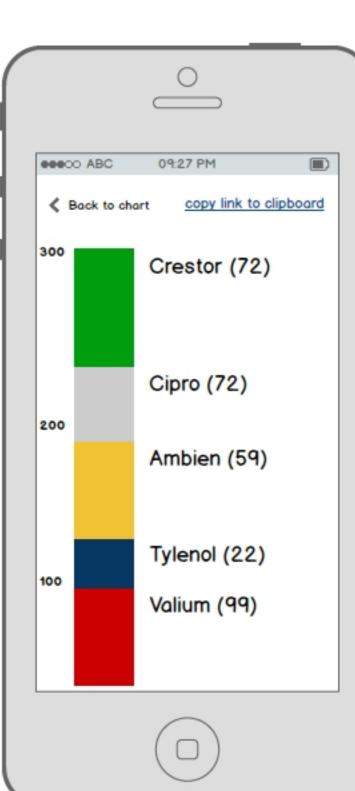

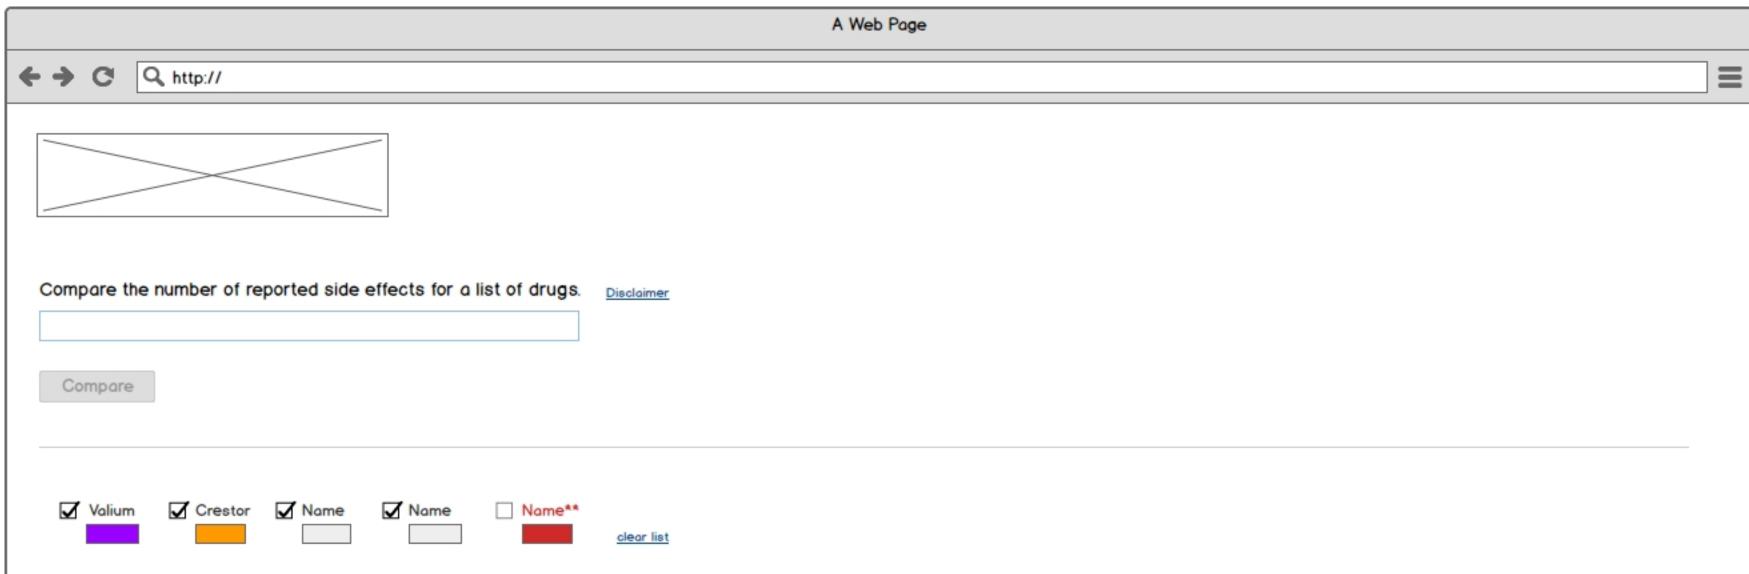

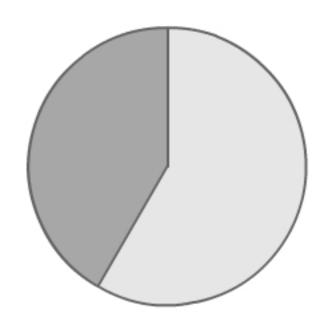

\*\* AHRQ data is unavailable. This drug may not display in charts.

## About the prescription data

Prescription frequency data provided by the Department of Health and Human Services. This is a sample prescriptions from approximately 15,000 households. It does not include non-prescription usages of drugs, and has various limitations as explained by the Agency for Healthcare Research and Quality.

## About the adverse event data

Side Effect data is provided by OpenFDA based on voluntarily reported data, and has various limitations and should not be relied upon for clinical research.

## No warranties
